

# Cultural Capital

Our aim is to provide inclusive and aspirational environments and learning experiences where pupils thrive and build the cultural capital they need to make aspirational choices about their own futures, overcoming barriers. In order to achieve this, our curriculum and enrichment opportunities are underpinned by the principles highlighted in our SHINE curriculum and through our Global Themes.

Successful  
Happiness  
Independence  
Nurture  
Enrich

Our school ethos is expressed in our SHINE values.

Sunnyside is a community that:

- ▶ Is aspirational and **successful** in meeting high expectations.
- ▶ Promotes **happiness** through being kind, supportive and empathetic towards others.
- ▶ Together will achieve **independent** life-long learners.
- ▶ Provides a **nurturing** environment which develops positive, tolerant, resilient citizens.
- ▶ **Enriches** the lives of all.

## Global Themes

Our SHINE Curriculum is designed for our children and school context. Global themes revisited every year, allow children to explore concepts at a deeper level and to apply their knowledge in different contexts. These themes will also be visited in our weekly Monday assemblies and also during our half termly Pupil Leadership meetings.
